Profile

I am a reliable, hard-working film student and science graduate with considerable experience in a team environment and a positive attitude towards all challenges I encounter. My time at university and previous periods of employment have given me the confidence to engage with customers and colleagues to a high standard, providing a quality service with both composure and personality. My academic studies also show how I can bring a logical and disciplined mind-set to any field of work whilst remaining approachable and perceptive through experience as a role model to younger students. My experience as a film-maker has given me the ability to self-shoot, produce and edit various styles of documentary film using professional editing software such as Adobe Premiere Pro. I am looking to go into the film and television industry using the knowledge I have picked up on my Masters and voluntary experience I have attained.

Education

MA Ethnographic and Documentary Film (Practical-based)

University College London
(September 2019 – present)

Assistant Technician – Stage Two Ltd.

<http://www.stage-two.co.uk>

(May 2012)

- Following instructions carefully when helping with the setup of PA systems.

Hobbies & Interests

I have been enthusiastic for sport all my life, playing regularly for both club and school throughout my childhood and up to my sixth form's First XI side. I was also an active member in my school's rugby and athletics teams, making the First XV rugby squad in sixth form which led me to a nomination in the school's sports award for rugby. My dedication and enthusiasm to

school sport in general was acknowledged with both the Progress in Sport and Full School Colours awards. Due to my good exam results and hardworking attitude in class I was awarded the Governor's Prize for Academic Excellence. My passion for football and rugby continued during my time at Durham University where I played for the university college first teams. I also found an interest in trying new sports which lead to me to become a member of the Durham University Baseball team. In my spare time I am a keen photographer, having done a Photography for Beginners course at Oaklands College.
